

AE ARMA-ELEKTROPANÇ

AE ARMA-ELEKTROPANÇ
engineering for future

CHAIRMAN'S MESSAGE

We are a leading engineering firm on a path to become a global player that currently provides our services to nine countries across three continents. Since the day we have established, including in our own country, we work to add value to the economies of the areas we carry out our activities and we have introduced the terminology of “technical contracting” to Turkey.

On our path to become a global player, when undertaking our work, we are taking active measures and with a sense of responsibility to protect the environment and natural sources and we have made it our duty to work within a framework of respect towards both the environment and humanity. We have successfully completed significant projects along with our business partners and experts from different cultures and geographies, with our work focusing on continuous development, renewal and innovation.

By maintaining the highest level of customer satisfaction and overall understanding of quality on all the projects we undertake, we aim to work on many more prestigious projects with the **AE** signature and through doing so achieve the happiness of all our shareholders, investors and work colleagues.

One of the main features that separate our firm from its competitors is how our fast and brave reaction to the subject of integrating new technology with our high experience in engineering and implementation process has allowed for more stable steps going forward. In this respect being a firm that operates on an international level, we closely follow and utilize the latest technologies available to this era, that is ever developing and evolving, for both our site operations and as part of our management philosophy.

With numerous awards adding to its achievements, **AE** continues to make its mark on the international construction scene with its strong vision for growth and exceptional engineering offerings.

Chairman of the Board
Kemal Kizilhan

COMPANY PROFILE

One of the strongest and leading companies of the Turkish engineering and contracting sector, ARMA ENGINEERING founded in 1986 and ELEKTROPANÇ ELECTRICAL INDUSTRY founded in 1991 joined their forces and resources in October 2001 to establish **AE ARMA-ELEKTROPANÇ**.

With the ample experiences of both groups and the state of the art technologies, this alliance enables **AE Arma-Elektropanç** to optimize services and perform a leadership role in Turkey and the continually growing international markets by applying innovative, skilled engineered and cost effective solutions.

With years of experience and innovative solutions, as an international technical service provider, **AE** has successfully completed numerous type of projects such as residential, commercial, retail, educational, health-care, social and cultural, theme parks, sports arena, hospitality, data center, transportation & infrastructures and industrial.

MISSION & VISION

Mission

With the supreme breadth of knowledge, products and services, our mission is to resolve challenging technical design and engineering problems using successful project implementation, combining our expertise with our superior technology and working towards the highest delivery standards for cost effective solutions.

Vision

Our vision is becoming an international player not only in the electrical and mechanical sectors (MEP), but also in the tourism, health and renewable energy sectors with an aim to create partnerships, long term investments, turnkey solutions and ultimately maximizing customer satisfaction by ensuring to provide with an optimum and reliable solutions.

SERVICES

AE Arma-Elektropanç covers the entire range of electrical engineering solutions of every size, such as low, medium and high tension, energy management and distribution, measuring and control technology, instrumentation, integrated security and building management.

AE covers the entire spectrum of air, climate and energy solutions, including HVAC cold and heat storage, cleanroom technology, piping, fire-extinguishing technology and mechanical process installations.

For the industrial sector, the focus of **AE** is on power plants, the automotive industry, chemicals and petrochemicals, pharmaceuticals, oil & gas, the animal feed, aircraft and food industry.

For traffic & infrastructure, **AE** provides the measurement, analysis and improvement of traffic flow, traffic management, infrastructure and safety, airport infrastructure, railway, tram and metro, tunnels, bridges and locks, transport and distribution networks, public lighting, waste and drinking water treatment and management.

AE manages technical facility services like operation & maintenance and repair of multivendor equipment's in intelligent residences, offices, industrial facilities, power plants, airports and aircraft maintenance centres.

AE services protects the technical assets and reduce OPEX.

AE also provides services and solutions by applying the latest state of the art technologies, particularly in energy saving and green buildings.

AWARDS

MIDDLE EAST MEP TOP 25

TURKEY FORTUNE

Capital

By being placed on the lists published by important publication organizations both in Turkey and around the World, **AE Arma-Elektropanç** proves its success, a success it aims to continuously increase.

AE ranked at 183rd in the “Top International 250 Contractors” 2020 list published by the most prestigious international newsletter within the construction industry Engineering News Record (ENR). **AE** has been listed at 245th, 229th, 222nd, 190th, 156th and 176th respectively at 2014, 2015, 2016, 2017, 2018 & 2019.

AE ranked in the list of the “Top 25 MEP Contactors of the Middle East” issued by a respected and prestigious publication in the construction sector in the Middle East called MEP Middle East magazine since last seven years.

Also by entering both of the lists “Capital 500 Türkiye” and “Fortune 500 Türkiye” 2020, published by Turkey’s most prestigious economic and business world publications Capital and Fortune, **AE** has once again confirmed that it is among one of the biggest and most valuable companies of Turkey.
